

## TECHNICAL DATA SHEET

### FL0005 ANTI-FOAM SOLUTION

**DESCRIPTION:** **ANTI-FOAM SOLUTION** is a white, silicone emulsion liquid formulated for a quick knockdown of foam in the receiving tank of soil extractor equipment. **ANTI-FOAM SOLUTION** is a stable emulsion and can be diluted without concern of separation in the tank. **ANTI-FOAM SOLUTION** has excellent dispersibility, which helps break down foam quickly by spreading to all sides of the tank to eliminate the foam.

**BENEFITS and FEATURES:**

- Quick dispersibility
- Excellent spread ability
- Storage stability over many months
- Fast knockdown
- Insoluble in foaming systems

**DIRECTIONS FOR USE: SHAKE WELL BEFORE USING.** Mix 1 ounce of **ANTI-FOAM SOLUTION** in the recovery tank to each 5 gallons of the recovery tank capacity. Mix 1 ounce of **ANTI-FOAM SOLUTION** to 1 quart of water and place into the feed system that is fed into the vacuum hose of the recovery tank.

**SPECIFICATIONS:**

Color .....	White
Fragrance .....	Mild
pH .....	7.9 – 8.9
Specific Gravity .....	1.042 – 1.062

**SHELF LIFE:** Up to one (1) year from the manufacturing date and when stored in ambient conditions.

**SAFETY:** Keep out of reach of children. Refer to the SDS and product label for precautionary statements and first aid measures.
