

## TECHNICAL DATA SHEET

### FL0027 H.D. CONCRETE CLEANER

**DESCRIPTION:** H.D. CONCRETE CLEANER is a free-flowing, dustless, highly alkaline, powdered material designed for the cleaning of unpainted concrete floor surfaces.

**BENEFITS and FEATURES:** H.D. CONCRETE CLEANER is compounded using regulated caustic wetting agents and pine oil. H.D. CONCRETE CLEANER cleans through saturation and penetration and will remove grease from unpainted concrete floors through a method of saponification.

**USES:** H.D. CONCRETE CLEANER is suggested to be used in the cleaning of concrete floors, driveways and related areas for the removal of greases, soils, and oil deposits.

**SPECIFICATIONS:**

Color .....	Yellow-White Granular
Fragrance .....	Pine
pH (1%) .....	12.5 ± 0.5
Type of Surfactants .....	Anionic
Grease Cutting Ability .....	Excellent
Volatile Organic Compound (VOC) .....	3% or 30 gm/kg

**DIRECTIONS FOR USE: Application:** Dissolve 8 ounces to 32 gallons of water. Place H.D. CONCRETE CLEANER in the container before adding water. Mop the floor. After the grease is emulsified, rinse the floor by mopping with clear water.

Wet the area to be cleaned. Sprinkle H.D. CONCRETE CLEANER on the surface and spread with a broom or brush. Allow the floor to remain wet and agitate the heavy grease spots. After the grease is emulsified, either mop with fresh water or hose off.

**STORAGE and HANDLING:** Keep out of reach of children. Store in a cool, dry place. Avoid eye contact. Refer to the SDS for additional precautions or first aid measures. For institutional and commercial use only.
