

TECHNICAL DATA SHEET

FLOMATIC

Low Foam Heavy Duty Cleaner

DESCRIPTION: FLOMATIC is a very effective auto scrubber cleaner for grease and oil build-up. It can be used for cleaning floors, walls, woodwork, and for general cleaning. Soot and greasy soil from diesel truck and engines are quickly cleaned up. Because of its proven effectiveness, it should be used for grease and grime clean-ups in manufacturing plants. Used through a power scrubber, it cleans the floors without excess suds. After rinsing, it leaves no slippery residues. Since it is non-flammable, it eliminates the danger caused by solvents. It may be used in areas that have potential fire hazards. This cleaner is a clear, light blue solution. It is water-based and will not burn.

DIRECTIONS FOR USE: For Floors: Mix from 20:1 to 100:1 with water, depending on the soil condition. Use with a scrubbing machine or apply with a mop. Allow a few minutes dwell time for penetration, then rinse off with clear water. For light duty cleaning: ten parts of water may be used.

For other surfaces, equipment, walls, and ceilings, use also at a dilution of 20:1 or 40:1, depending upon the amount of soil. For food contact surfaces, always follow with a potable water rinse.

PHYSICAL PROPERTIES:

Color	Clear light blue
Odor	Butyl
pH	12.5 – 13.5
Specific Gravity	1.068 – 1.078
Type of Surfactants	Nonionic
Hard Water Compatibility	Excellent
Grease Cutting Ability	Superior
VOC gm/L	0
Weight per Gallon	8.95

STORAGE and HANDLING: Keep out of reach of children. Store in a cool, dry place. Avoid eye contact. Refer to the SDS for additional precautions or first aid measures.
