

TECHNICAL DATA SHEET

SHIELD ALL Protective Coating

DESCRIPTION: SHIELD ALL is a water based silicone protective coating and cleaner. Formulated to protect automobile painted surfaces, vinyl seats, dashboards, glass and chrome, against dust, finger marks, smudges, built up film and air pollution fallout.

RECOMMENDED USES: Protects painted finishes, mirrors, plastics, vinyl, tile, chrome, and other surfaces such as Formica, leather, silverware, Venetian blinds, light globes, plexi-glass, and windows.

ADVANTAGES:

- Remains clear
- Contains no abrasives
- Easy application
- Leaves no film residue
- Non-toxic
- Streak free

APPLICATION: Apply SHIELD ALL to clean, dry surface with a sponge, soft cloth, or by spray application. Buff to a high luster with a soft, dry cloth or towel. Apply indoors at room temperature. One coat offers sufficient protection. Additional coats may be applied, if desired, to increase water repellence, luster, and non-soiling qualities. Apply by sponge or by spray application. Wipe clean with soft, dry, lint-free cloth or towel.

SPECIFICATIONS:

Color.....	Milky White
Odor.....	Lemon
Toxicity.....	Non-toxic
pH.....	7 - 8
Weight Per Gallon.....	8.36 lbs. per gal.
Specific Gravity.....	.0992 – 1.012
Water Resistance.....	Excellent
V.O.C.....	<1 g/L

SAFETY: Keep out of reach of children. Store in a cool, dry place. Avoid eye contact. Refer to the SDS for additional precautions or first aid measures. For institutional and commercial use only.
