

TECHNICAL DATA SHEET

FL5330 PRO-TEC CARPET PROTECTOR

DESCRIPTION: This is a liquid carpet and upholstery protector with anti-soil and anti-stat capabilities that are highly effective. It can be applied in place. When applied after shampooing or cleaning, it greatly reduces soiling and the shocking effect of static build-up.

BENEFITS and FEATURES: For use on carpets, upholstery, and drapery.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING. PRO-TEC CARPET PROTECTOR should only be applied to a clean carpet. When shampooing is required, follow with hot extraction to remove excess shampoo.

The use level depends upon the fiber and construction of the carpet and should be established by the user for optimum results. Mix 1 part PRO-TEC CARPET PROTECTOR to 5 parts of water. Spray in a uniform manner. Apply to carpet at the rate of ½ gallon of diluted spray mix for every 100 sq. ft. of carpet.

1. Use any good quality clean pressure sprayer. Stainless steel or plastic are recommended to prevent rusting. A #8004 Tee jet nozzle or equal is recommended.
2. Hold the spray nozzle 12"-18" inches from the carpet and apply ½ the prepared spray mix over the entire carpet area, spraying in one direction only. Apply the other half over the entire carpet area by spraying in the opposite direction. NOTE: It is extremely important to obtain uniform coverage. Uneven application may result in uneven soiling.
3. For best performance, work the product into the carpet immediately after spraying.
 - Use a pile brush on pile-type constructions.
 - Use a shag rake for open shag construction.
4. Allow carpet to dry.
5. Flush the tank, hose, and spray nozzle with fresh water after each use. Carpet should be allowed to dry completely for maximum effectiveness.

UPHOLSTERY/DRAPERY: Application is the same as for carpets. Brush in with a soft brush. Fabric should be allowed to dry completely for maximum effectiveness. Always test in an inconspicuous area for colorfastness.

SPECIFICATIONS:

Color	Milky Opaque Tan
Odor	Mild
pH	6.4 – 7.4
Specific Gravity	0.995 – 1.015
Solubility	Dispersible/soluble in water
Volatile Organic Content (VOC)	< 15 g/L

STORAGE and HANDLING: Keep out of reach of children. Store in a cool, dry place. Avoid eye contact. Refer to SDS for additional precautions or first aid measures. For institutional and commercial use only.
