

TECHNICAL DATA SHEET

ACHIEVE SILICONE FURNITURE POLISH

DESCRIPTION: **ACHIEVE** is a white cream polish that provides a clean, clear film for protection to various surfaces. **ACHIEVE** is easy to apply, and rubs out with a minimum of effort to an even gloss. It is a film forming silicone that dries to a non-tacky surface that is free from a dust collecting residue.

RECOMMENDED USES: **ACHIEVE** can be used on furniture, table tops, chrome, stainless steel, plastic surfaces, brass, ceramic, plastic tile, vinyl upholstery, porcelain, and porcelain enamel surfaces.

ADVANTAGES:

- Remains clear
- Contains no abrasives
- Non-toxic
- Easy application
- Streak free

DIRECTIONS FOR USE: Spray, using either a pump sprayer or trigger spraying device, holding 4-6 inches from the surface to be cleaned and polished. Spray sparingly, do not over spray. Wipe the surface immediately with a clean cloth before spray has dried. May be sprayed directly on cloth for polishing chair legs, table legs, etc.

SPECIFICATIONS:

Color	White Liquid
Odor	Lemon
Toxicity	Non-toxic
Viscosity @ 77°F.....	Thin
pH	7 - 8
Weight per gallon.....	8.34 lbs. per gal.
Specific Gravity.....	0.990 – 1.010
Refractive Index.....	11.0 ± .05
Water Resistance.....	Excellent
Flash Point.....	Will Not Flash
Freeze Point.....	N/A
V.O.C.....	<2 g/L
