Rinse Aid

DESCRIPTION:

This product is a liquid compound designed to speed the drying, and prevent water-spotting of dishes, glassware, and flatware, in mechanical dishwashing machines. It also aids in the de-liming of the rinse lines and jets. It gives exceptional results in almost any water condition that may be encountered.

DIRECTIONS FOR USE:

This product is introduced into the rinse-water line of a dish machine by a pump driven proportioner. The proportioner dilutes the product into the rinse water at a rate of 2 oz. Per 100 gallons of water. Lo-Temp Rinse Aid can also be used for dip tank rinsing by diluting 1-2 oz. Per 10 gallon of 180°- 190° water.

STORAGE AND HANDLING:

Keep out of reach of children. Store in a cool, dry place. Avoid eye contact. Refer to SDS for additional precautions or first aid measures. For institutional and commercial use only.

Prolonged or repeated contact with liquid may cause skin irritation. Do not take internally. Avoid contact with eyes.

SPECIFICATIONS:

Color	Clear Dark Blue
	Liquid
Fragrance.....	Bland
pH	3.7 ± 0.5
Specific Gravity	1.005 ± 0.005
