# GREEN PERFORMANCE®

PRODUCTS THAT ARE SAFER FOR THE ENVIRONMENT

[epa.gov/saferchoice](http://epa.gov/saferchoice)

## ENCAPSULATING CARPET CLEANER

**Works effectively with both cylindrical brush machines and bonnet pads.**

**GREEN PERFORMANCE® BRAND** is part of Chemco's continuing effort to build products that are safer for the environment. These products are formulated to achieve a high level of cleaning performance while providing a significant benefit to people and the environment.

### GP118 - ENCAPSULATING CARPET CLEANER

**ENCAPSULATING CARPET CLEANER** uses soil crystallization technology to remove soils, spots and stains from carpets with minimal dry time. This process traps embedded soils in clear polymer crystals that can be removed during vacuuming of the carpets. This technology enables the user to thoroughly clean a variety of soils from carpets utilizing less water and less labor. Carpets stay cleaner longer, damage to carpet fibers is reduced and carpet life is extended. With a limited amount of water being used, areas cleaned with this process can be ready for foot traffic within one hour of cleaning.

### DIRECTIONS FOR USE

**Note: Always test for colorfastness in an inconspicuous area before use**

1. Vacuum carpet area to pick up any loose soil.
2. Dilute at 8 oz. per gallon of water and apply with a pump sprayer.
3. Pre-spray the carpet to be cleaned. Gallon coverage is approximately 600-1000 square feet. Be careful not to over wet the carpet.
4. Agitate the carpet utilizing a counter rotating brush style machine, (with brushes specifically made for carpets), carpet bonnet or manual carpet rake. This will loosen the soils in order for the crystalline technology to work.
5. After the carpet is machine brushed, allow the surface to dry (approximately 20 minutes).
6. Once the carpet is completely dry, you can vacuum the area to pick up all the encapsulated soil.

### PRODUCT APPLICATION

- Designed for routine maintenance programs
- Excellent for use on both commercial and residential carpeting

### PRODUCT SPECIFICATIONS

- Color - Clear Light Brown
- White Blossom Fragrance
- pH - 8.0 - 9.0
